

Herolab

GmbH

Laborgeräte

Developing the existing with responsibility and forward momentum.

Ladies and Gentlemen,

Everything is in motion - including our company and our employees. Movement always brings change. There was also a change in our management at the end of August.

The founder of Herolab GmbH Laborgeräte and Managing Director for many years, Mr. Erhard Knorr, handed over his great responsibility to new hands on August 31, 2022, in order to enjoy a well-deserved retirement.

However, Mr. Erhard Knorr will not leave us completely, but will continue to consult and actively support the company in the background with his well-known, prudent manner, as well as continue to accompany projects that have been started. Thus, we will continue to benefit from his long-standing and rich expertise in our diverse fields of activity.

With the appointment of Mr. Jan Celinšek, we have succeeded in gaining a proven and innovative co-thinker as the new managing director of Herolab GmbH Laborgeräte.

Mr. Jan Celinšek took over the function as managing director of Herolab GmbH Laborgeräte on 01.09.2022.

Mr. Jan Celinšek, a graduate engineer in electrical engineering from the Technical University of Berlin, has managed a well-known, globally active company in laboratory and medical equipment manufacturing in Berlin in recent years. He is married and father of two children.

Mr. Jan Celinšek is ready to undertake the great responsible task with motivation and all due respect. The shareholder as well as the employees of Herolab GmbH Laborgeräte trust in the abilities of the new managing director and wish him much success and energy for his important new function in the interest of a sustainable further development of the company.

We hope that you will place the same trust in Mr. Jan Celinšek and look forward to working with you in the future as a partner, customer or supplier.

Erhard Knorr

Jan Celinšek
